

## Spanish I / Spanish II

Mrs. Diaz  
Harding Fine Arts Academy  
2008-2009

Spanish I and II lessons are designed to build basic proficiency in speaking, writing, and reading Spanish. These lessons encourage students to participate actively and complete their daily class work, which includes oral, listening, and written assignments.

Textbook: Paso a Paso I (Spanish I) and Paso a Paso II (Spanish II)

Each week students will receive three grades composed of daily participation, homework, and a test. For each day that a student does not participate or does not turn in class work or homework, one letter grade will be deducted from his or her weekly participation or homework grade. These components will be equally weighed for quarterly reports.

**Daily participation and class work-** Daily participation and class work will be graded weekly. However, for each day that a student does not participate or does not turn in class work, one letter grade will be deducted from his or her weekly participation grade. Class disruption or behavior issues will also negatively affect the participation grade.

**Homework-** Homework will be assigned during class and can be done as class work. However, if a student does not finish an assignment in class, he or she will be responsible for completing the assignment at home and turn it in, before the beginning of the next class.

**Test-** Each chapter will have a test. Tests may include an oral, listening, and written assignment. Each week students will be tested on what they have been working during the week.
